Summary of Qualifications

I am a skilled front-end web developer with expertise in creating responsive websites using HTML5, CSS, JavaScript, and jQuery. My experience includes leveraging WordPress to build marketing promotions, landing pages, and site updates, as well as integrating third-party REST APIs. I am proficient in Google Analytics and Google Tag Manager, and have developed single-page web applications using React and or Angular. I excel in modern front-end development workflows with Node.js, NPM modules, and Grunt task runners, enhancing code efficiency. I thrive in dynamic, fast-paced team environments and communicate effectively to ensure timely delivery of projects. I would be a valuable asset to your team as we tackle exciting new challenges together.

Skills

- HTML5 & CSS3 (including SASS/LESS)
- JavaScript (ES6, jQuery)
- Frontend frameworks: React.js & Angular.js
- Backend knowledge: Node.js & REST APIs
- Responsive design & Bootstrap
- WordPress & PHP experience

Transferable Skills

- Proficient in managing multiple tasks simultaneously while maintaining high-quality results.
- Strong communicator with proven problem-solving abilities to address challenges effectively.
- Skilled at prioritizing tasks and working proactively to meet deadlines.
- Highly self-motivated and a dedicated team player, committed to contributing to team success.
